Maybe you've cracked your first playthrough of Fire Emblem: Three Houses and you're wondering what the other routes have in store. Alternatively, you could be totally new to the whole thing and maybe you're wondering what House or route to pick. Do the Houses have more than one route each? Is there any route not particularly tied to any House's success? Obviously, we're going to venture slightly into spoiler territory here for those who want to make an informed choice, but our Fire Emblem Three Houses story paths guide should prove useful to anyone on the fence. The first thing to get out of the way is that there are actually FOUR different story paths in Fire Emblem: Three Houses. That might seem a bit strange considering that there are only three Houses, but it's not a matter of us being horrific at counting. The different routes are as follows: Azure Moon, Blue Lions, Verdant Wind, Golden Deer, Crimson Flower, Black Eagles, Silver Snow, Black Eagles Yes, that's correct. As explained in our Fire Emblem Three Houses Secret Route guide, there are two different routes available if you pick the Black Eagles House on your playthrough. The Crimson Flower route is the one that enables you to align the most closely with Edelgard, so if you're picking the House based on your ability to romance her or to support her aims, then you're going to have to make the crucial choices outlined in our Secret Route guide. Failing to do so will automatically set you on the Silver Snow route: while this is only accessible via the Black Eagles, it will actually align you with the Church instead of with Edelgard and the Adrestian Empire. In that sense, it's a wholly unique experience compared to the routes of the Blue Lions and the Golden Deer, which all involve their House leader in a major way. If you're still on the fence as to which route you should pick, it's probably good to know that Verdant, Esab Otmepmaca Ues Rarohlem Ed Aicn Airepxe Amsem A Etnemacisab jArassap Acov, ator sa sadot mE acinA edadilbah airpArp aus met meganosrep odot euq evresbo, ossid mAlA atsoq siam Acov sneganosrep siauq a emuser es etnemselpmis ator amu ed ahloce ad etrap ednary amu ofAtne .mectnocca sotneve so omoc etnemacitsard adum ortuo uo odal mu me rasserni zehS .etneretid airAtsih amu met saAnarepse sArt me ator adac ator adac me etneretid A euq O .saAnarepse sArt rasAemoc arap ofAsAtneiro ed ocuop mu rad a somerađuja sam ,rezaf ed licAfid ahloce amu A .ossi rahnapmooca arap asatsarraa uo setneretid sairAtsih sArt met saAnarepse sArt .rapictrap arap sasac sArt sad amu rehloce jArasicorp Acov euq acifingis ossi ,rarepse edop Acov omoc .hcaM getragO orietsoM on laicilo ed aimedaca A odnatnuj es abaca euq ,zehS odamahc oirAnecrem mu ed lepap o mamusa serodagoj so euq moc zaf ogoj etse .sasac sArt sad airAtsih ad megatnocer ed etcApse amu omoc odnanoiucnf .saAnarepse sArt :sroirraW melbmE erif me sogoj ed sametis sotiun etnemataidemi jArechnocer Acov ,sasac sArt .melbmE erif uogoj Acov es sasac sArt .melbmE erif latsiuproc e etnerif me jAv .adamrofni ahloce amu rezaf a ol- Aduja arap sesuoH eerit melbmE erif od sohnimac ed aiuc osson o met Acov euq aroqA .amron a ed arof adarqA ehl euq ogla A ossi es etneretid etnemadacram aicnAirepxe amu jArad ehl ejerri ad ator a sam .odnagoj jAtse Acov asac laiq ed etnemtednepedni ,amard ed atsuj etrap aus mAt sator sairAv sa .sasac sa sadot mE .entem me rot majesd mAbmat serodagoj sovon so euq rotaf mu res assop sadi euq arap levAnopsid solutApac ed somret me sid sortuo so euq otruc siam etnemlevaton A - nosmirC rolF - dragledE ed laossep ator a e .rareidnoc ajese Acov euq ogla A ossi es .etneretid lanif efelhc mu jAh ,edadreV n .dragledE e irtimid ed sator sad etneretid etnematisid lanif mu met jedualC ed ator a(ator A Characters and interpret various missions on the world map to conquer regions. However, remember that the Black Eagles route is a little longer than the other three, with almost 30% more event scenes. There are also two different branches for history on each route, based on whether you recruit or fight or not. If you have played three houses, you must think of three hopes in the same way, with the black eagles being more. The route "Advanced", while the golden deer and the blue lions are the simplest. If you haven't played three houses, however, we'll go over the playable character you get with each house and what they focus on. It is also important to note that there are additional characters that you recruit on each route, but due to spoilers, we do not cover them. Golden Deer - Golden Wildfire Routepick The Golden Deer If you want an army that has a mixture of long-range attackers. Claude is the most specialized unit, of course, and he is the only character who can shoot an arch while riding a Wyvern, which makes sense, considering his master class of Wyvern. Here are the main units available in the Golden Wildfire and the classes they specialize in and their unique skills. CLAUDE (Wyvern Master) - The DustCloud ability imbues attacks with the wind. Lorenz (Cavalier) - Rondo of Roses The ability can block enemy attacks when the meter is full or attract enemies if used. HILDA (BRIGAND) - The radius binding capability allows you to keep the attack button pressed to increase damage and add a radius. RAPHAEL (Brawler) - The ability of pure force allows you to carry attacks for extra damage. Ignatz (Archer) - The dreamer's brush ability splashes the ground with pain. Enemies who walk in pain suffer elementary damage. Marianne (defaul) - Capacity automatically rains ice attacks down when you reach 300 hits. Leonie (Cavalier) - Careful study attacks increase normal double attack counting. BLUE Lions - Azure Gleam Routepick The Blue Lions If you want an extent that focuses heavily on gamma weapons nearby. Nintendo the blue reads focus almost exclusively on fan attackers and very few characters who specialize in magic or arches. Dimitri has the High Lord class that has some of the highest damage results in the game and a powerful throwing throw for their strong attack. Here are the students of the blue locks. Dimitri (High Lord) - Azure Lightning Imbue Skill Attacks with Relé e Mpago. DEDUE (Armored Knight) - Demolisher ability allows you to keep pressing the attack button to perform expression attacks on the impact that has reached a small area. Felix (mercenary) - Intense speed capacity allows you to dodge in the middle of an attack, and increasing your speed. Mercedes (Priest) - Radiant the love capacity gradually restores HP and fills the calibr. When it is full, you can use a movement that sucks and nearby allies. Sylvain (Cavalier) - Gordian Strike capacity increases attack range and damage proportionally when above 300 hits. Ingrid (Pegasus Knight) - Ice Plunge Ability to make enemies explode and cause ice damage when sent flying. Black Eagles - Scarlet Blaze Routepick The Black Eagles If you want an extent that focuses strongly on magic. Nintendo the Black eagles so the usual stronger in the game and a great focus on varied attacks. Edelgard is one of the best defensive units in the game with its Armored Lord class, making it an extremely efficient tank during battles. Here are the students of the Black Eagles. Choose Deer Golden or Black Eagles, and Dimitri dies off screen in the second half of the game, with deducting that he was knocked down by Edelgard's soldiers.
